GDAŃSK · KARTA POBYTU / 2026

MOS. Preparing a temporary residence application

A short plan for getting ready to submit a residence application through Poland’s government MOS portal.

Before opening MOS

- Choose the correct basis for residence.
- Prepare passport scans, a photograph and evidence of purpose.
- Review the application template effective from 27 April 2026.

When employer Annex No. 1 is required

- Have the correct employer email ready for the MOS form.
- Agree the employment details before the employer receives the online link.
- The employer completes and signs the annex electronically; submission cannot be completed without the required annex.

When ready

- Visit the official MOS portal and follow its instructions.
- The application must be filled in Polish; save all submission confirmations.
- Monitor messages from the regional authority and respond when requested.

gdansk-karta-pobytu.pl is an independent support website, not the government MOS portal.
